

Vin PODIUM

INSTRUCTION BOOKLET

MODEL HC04

INTRODUCTION

Congratulations, you are the proud owner of the VinPodium, a rapid wine and Champagne chiller from Revolutionary Cooling Systems (RCS). The VinPodium is fun, safe, and easy to use!

Thank you again for your purchase and be on the look out for other RCS products at www.CooperCooler.com and www.VinPodium.com.

The VinPodium is safe for chilling wines and Champagne/sparkling wines. Rapid chilling has no effect on the wine or Champagne/sparkling wine's properties.

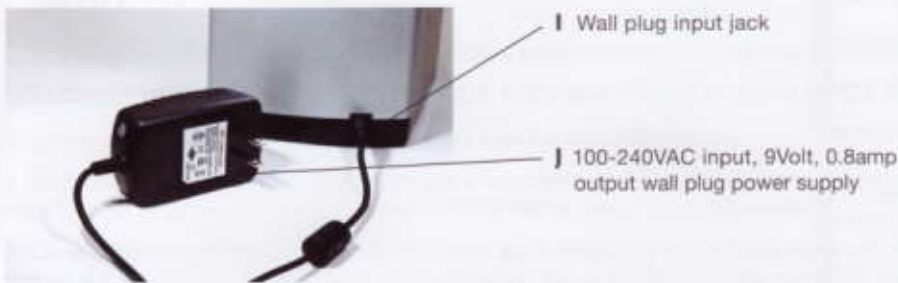

IMPORTANT SAFEGUARDS

PLEASE READ ALL INSTRUCTIONS BEFORE USING YOUR VINPODIUM.

1. Before using any electrical appliance, basic safety precautions should be followed to prevent or reduce the risk of electric shock, fire, and/or injury.
2. Do not let children use the VinPodium without adult supervision. Store your VinPodium out of the reach of children.
3. To prevent electric shock, do not immerse the cord, plug, or VinPodium in water or other liquids.
4. Check voltage to be sure that the voltage indicated on the name plate agrees with your voltage and only use with the provided wall plug. DO NOT USE another manufacturer's plug as this may damage the unit and cause your unit to malfunction which may lead to bodily harm. This will also void the unit's warranty.
5. Unplug your VinPodium when not in use and before cleaning, adding water or ice, or emptying water.
6. Do not use your VinPodium if the electrical cord or plug is damaged, or after the unit malfunctions or is dropped or damaged in any manner.
7. Only use the VinPodium with the power supply that originally came with your unit. Use of any other type of plug may cause damage to your unit.
8. In the United States, contact our Customer Care at info@VinPodium.com for repairs or servicing or call us Monday – Friday 845-229-4101 10am – 5:30pm Eastern time.
9. To reduce the risk of fire or electric shock, do not attempt to disassemble your VinPodium as it does not contain any user-serviceable parts.
10. To reduce the risk of injury, do not let the cord hang over the edge of a table or counter or touch hot surfaces.
11. Operate your VinPodium on a clean, dry, and level surface.
12. Keep your VinPodium away from any hot appliances or surfaces.
13. Do not attempt to move your VinPodium while it is in operation or still plugged in. To move your VinPodium safely, unplug the unit, make sure the unit does not contain a beverage and that all ice and water has been poured out of the unit. Only then can you safely move your VinPodium. Please pay attention not to drop your VinPodium and to where the cord is to prevent tripping over it.
14. Only use your VinPodium for its intended purpose. When not in use, unplug your VinPodium, pour out the ice/water bath, and allow to air dry.
15. Do not clean your VinPodium with scouring powders or pads that may damage the unit's surface. Use only mild soap and water and allow to air dry.
16. Your VinPodium is designed for household use only. Any servicing other than cleaning and user maintenance should be done only by authorized Revolutionary Cooling Systems (RCS) personnel.

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

DESCRIPTION OF PARTS

HOW TO OPERATE YOUR VINPODIUM

Now that you are ready to use your VinPodium, please follow these simple instructions to rapidly chill your bottle in minutes.

1. Place the unit on a clean, dry, level surface and pour 2 cups of cold water (500ml) into the ice and water bin.
2. Add approximately 12 to 14 standard ice cubes into the ice and water bin.
3. Lift the adjustable water jet neck to the top most position to make it easier to insert your bottle into the unit.
4. Place the bottom or the punt of the bottle onto the round bottle support base inside the unit. Place the bottle so that it is centered as much as possible and the bottle is not touching the rim of the ice and water bin—this is more of an issue with larger 1.5 L bottles.
5. Adjust the water jet neck up or down so it is close to the bottle but not touching it.
6. Plug the power adapter into the back of the unit and then into an appropriate outlet.
7. Set your chill time on the digital timer. The timer is automatically set at 10 minutes. Use the top button (+) to increase the minutes and the bottom button (-) to decrease the minutes. Use the wine chilling chart as a general guide for how long to chill your wine for based on the type of wine it is.
8. The Water Flow Button (H/L) is automatically set on the LOW position at start up.
9. Press the start/stop button  and water will begin to pour from the jet spout in about 15 seconds. This delay in water flow helps prevent water from splashing. At full flow, the water will be a steady and smooth stream over the wine bottle. If excessive splashing occurs, adjust the neck jet up or down until there is no more splashing.

* Larger 1.5 L bottles, may require the use of the HI flow setting. Press the Water Flow Button once to put the unit into the HI flow water mode. In this mode the water flow rate will increase and this will provide more water coverage over the larger bottle. If splashing occurs after you do this, press the button again to put it into the LOW flow rate.

10. The digital timer will count down until your bottle is chilled.
11. Remove your bottle by lifting the neck up and then remove your bottle and enjoy.

For the enjoyment of your wine or Champagne/sparkling wine we suggest the following serving temperatures based on the type of wine or Champagne/Sparkling Wine:

<i>Variety</i>	<i>Temperature</i>
Vintage Port	66°F/19°C
Bordeaux, Shiraz	64°F/18°C
Cabernet, Red Burgandy	63°F/17°C
Pinot Noir	61°F/16°C
Chianti, Zinfandel	59°F/15°C
Beaujolais, Rose	54°F/12°C
Sauternes	52°F/11°C
Riesling	47°F/8°C
Champagne, Sparkling Wine	45°F/7°C
Ice Wine	43°F/6°C

Now that you know the suggested serving temperature of your wine, please follow the wine chill time chart for approximately how many minutes it will take to chill.

NOTE Spirit/liquor bottle chill times will be similar to the wine bottle chill times based on the bottle's volume.

<i>Time</i>	<i>Temperature</i>
3 min	64°F/18°C
5 min	57°F/14°C
10 min	46°F/8°C
15 min	41°F/5°C
20 min	37°F/3°C
25 min	35°F/2°C

750 ml Wine Bottle Chill Times

(assuming an initial temperature of 77°F/25°C)

<i>Time</i>	<i>Temperature</i>
3 min	68°F/20°C
5 min	61°F/16°C
10 min	51°F/11°C
15 min	44°F/7°C
20 min	41°F/5°C
25 min	37°F/3°C
30 min	35°F/2°C

750 ml Champagne/Sparkling Wine Bottle Chill Times

(assuming an initial temperature of 77°F/25°C)

The VinPodium is safe for chilling wines and Champagne/sparkling wine. Rapid chilling has no effect on the wine or Champagne's properties.

<i>Time</i>	<i>Temperature</i>
3 min	69°F/21°C
5 min	64°F/18°C
10 min	55°F/13°C
15 min	48°F/9°C
20 min	44°F/7°C
25 min	41°F/5°C
30 min	39°F/4°C

1.5L Wine Bottle Chill Times

(assuming an initial temperature of 77°F/25°C)

ADDING MORE ICE AND REMOVING WATER

Ice will need to be added as additional bottles are chilled. To add more ice, follow the steps below:

1. First, remove the bottle from the unit.
2. Before adding more ice, you will need to remove some of the water that has accumulated in the ice and water bin. To remove the excess water, set the timer to 1 minute, place a cup/glass under the water exit jet spout, press the start/stop button to start the unit. When the cup/glass is almost full of water, press the start/stop button to stop the unit.
MAKE SURE THERE IS STILL ENOUGH WATER IN THE UNIT SO THAT THE WATER CAN STILL FLOW FROM THE WATER JET
3. Now add more ice cubes and continue chilling your next bottle.

CLEANING AND STORAGE

If the unit is dirty, clean with mild lukewarm soapy water on a sponge or paper towel.

DO NOT USE ABRASIVE POWDERS OR SCOURING PADS SINCE THEY MAY SCRATCH THE SURFACE OF YOUR VINPODIUM.

If you wish to clean the inside of the unit, follow these cleaning steps.

1. Plug in the unit. Add enough soapy water mix into the ice and water bin and set the timer for 4-6 minutes. Start the unit and let the soapy water circulate. When done, dispose of this soapy water.
2. Rinse the ice and water bin with regular tap water leave enough water in there for the unit to work properly. Set your timer for 4-6 minutes and circulate the clean rinse water through the unit. When done, dispose of this water and repeat with clean water again until there is no more soapy water.
3. Unplug the unit and allow to air dry.

WHEN YOU ARE FINISHED USING YOUR VINPODIUM FOLLOW THESE STEPS

1. Unplug and remove any bottles from the unit.
2. Remove all water and ice from the unit. To remove the ice and water, first unplug the unit and carefully pour the water into your sink over the side of the unit. Rock the unit back and forth to remove water from the pump and pour out. Do not allow water to sit in the VinPodium for extended periods of time.
3. Allow the unit to air dry.
4. Store the unit in a safe place out of the reach of children.

SIX MONTH LIMITED WARRANTY

We warrant to the original purchaser with proper proof of original purchase, that your VINPODIUM will be free from defects in material or workmanship under normal household use for a period of six months from the date of purchase. Your VinPodium has been manufactured under strict specifications and has been designed for use with only RCS approved accessories or replacement parts. These warranties expressly exclude any defects or damages resulting from unapproved accessories, or replacement parts or other repairs other than those that have been authorized by RCS. This warranty does not cover any damage or defect due to accident, misuse, shipment, improper service, unreasonable use, tamper, cosmetic damage, acts of God, accidental breakage, abuse, negligence, neglect, or misuse.

During the above warranty period, a product with a defect will be either repaired or replaced with a comparable model when the return procedure and proof of original ownership is met. The repaired or replacement product will be in warranty for the balance of the six month warranty period and an additional one-month period. No charge will be made for such repair or replacement.

RCS grants you a six month warranty which gives you specific statutory rights. RCS will not be held liable for any special, incidental, or consequential damage, resulting from possession, use or loss of use of this product either directly or indirectly. There shall be no claims for defects or failure of performance or product failure under any theory of tort, contract or commercial law including, but not limited to, negligence, gross negligence, strict liability, breach of warranty and breach of contract.

RETURNS PROCEDURE

In the United States, if your VinPodium is under warranty and needs repairing, please contact RCS at info@VinPodium.com, or call us 845-229-4101 Monday-Friday 10am-5:30pm Eastern time. Please retain your original receipt for proof of purchase.

If you purchased your VinPodium outside of the United States, please contact the retailer you purchased the unit from for warranty issues. Please retain your original receipt for proof of purchase.
